PaKT

HOW IT WORKS

Parents and Kids Together (PaKT) is a fun activity-based program for children aged 6 - 12 years and their parents and carers, delivered over 7 sessions.

Parents and carers work with their children at school to create something special together, mainly from recycled materials.

Families also take part in group activities about personal safety, emotions, communication and more.

GET INVOLVED

Chat to your school about getting involved, or contact us if you want PaKT to come to your school or centre.
